Work with a partner you can rely on.

Boehringer Ingelheim is one of the world's leading biopharmaceutical contract development and manufacturing organizations. As a global business partner we provide services for a broad range of customers – from Small Biotech to Big Pharma. As your partner, we provide world-class expertise, on-going commitment and industry-leading project timelines for your projects.

We are where you need us

- Nestled in the heart of Northern California, the San Francisco Bay Area is home to the largest cluster of life sciences companies in the United States. The Boehringer Ingelheim Fremont facility fits well into this hub of innovation, which includes three world renowned universities; Stanford University, University of California, Berkeley and University of California, San Francisco.
- Fremont's distinctive design features extensive use of glass throughout, providing visibility into production suites, and uniquely symbolizes our open and transparent collaboration with our customers.
- Our 300,000 square foot state-of-the-art facilities, including the cGMP warehouse and QC labs, are ideally suited for the development and commercialization of our customer mammalian projects, including monoclonal antibodies and enzymes for therapeutic use.
- Our GMP manufacturing capabilities at multiple sites mitigate your operations risks.
- Boehringer Ingelheim can provide you tailor-made solutions – where you need us, when you need us.

Put our expertise inside your product

As a fully integrated manufacturing site, the Boehringer Ingelheim Fremont facility complements the capabilities and technology found across the global Boehringer Ingelheim manufacturing network. Our expertise in biopharmaceuticals contract manufacturing, as well as the proximity to our customers, enables fast and flexible interaction.

- As a leading contract manufacturer with more than 35 years of experience in mammalian and microbial systems, we have commercialized more than 25 biopharmaceutical products.
- With our long-term commitment to our customers, we provide the best solutions for your protein development and manufacturing needs – with Boehringer Ingelheim Quality, worldwide.
- Our international staff at Boehringer Ingelheim is renowned for their track record of reliably developing and manufacturing biopharmaceuticals for your patients.
- At Boehringer Ingelheim, we provide customers quality, reliability and customer focus.
